The Situation

It sounds like {{school_or_trust_name}} is trying to reduce workload, improve assurance, and avoid paying for fragmented systems that do not talk to each other. This proposal sets out how Schoolgle can help.

What Schoolgle Provides

Schoolgle is your school's operating system: one connected platform for school improvement, compliance and safeguarding, business operations, governance, communications, intelligence, and teaching workflows.

Why This Makes Sense

- One connected view instead of separate systems and spreadsheets.
- AI support through Ed that is designed for school context.
- Safer handling of school data than uncontrolled consumer AI use.
- Clear annual pricing that schools can explain to governors.
- Practical tools built for primary schools and trusts.
